INSTRUCTIONS FOR PULLING BLOOD AND OTHER TESTS AVAILABLE

Tests	Testing Requirements / Panel Details	Prices (in US dollars)
Thyroid Profile 4 *PLUS*	Send **1 mL** whole blood in lavender-top tube (**EDTA**) AND **1 mL SERUM**. Transfer SERUM to empty redtop or plastic tube. Due to the lavender-top tube Include ice pack when shipping, but do not freeze sample. Should be sent with an overnight courier. ***Test includes CBC with differential, Chemistry Panel and Thyroid 4 Profile.***	***$ 160.00***
Thyroid Profile 4	For patient on thyroid medication, please draw blood **4-6 hours** after giving thyroid medication, If applicable. Collect 3 to 5 mL of blood in a red top tube (RTT). Centrifuge. Transfer SERUM to empty redtop or plastic tube. **1 mL SERUM** is REQUIRED for the Thyroid Profile 4. ***Test includes T3, T4, free T3, free T4***	***$ 92.00***
CBC, Differential & Chemistries	Send **1 mL** whole blood in lavender-top tube (**EDTA**) AND **1.5 mL SERUM**. Transfer SERUM to empty redtop or plastic tube. Due to the lavender-top tube Include ice pack when shipping, but do not freeze sample. Should be sent with an overnight courier ***Test includes CBC with differential and Chemistry panel.***	***$ 82.00***
RABIES VACCINE TITER	Send **1.0 mL SERUM** in red top or plastic tube. Note: Allow 21-28 days testing time. **FAVN** (For Export) **$120.00 (Separate FAVN form required)**	***$ 98.00***
NUTRISCAN ® DIAGNOSTICS (FOOD INTOLERANCE TESTING)	SALIVARY IgA & IgM (Expect results within 2 weeks) Patient should **fast overnight** before collecting the saliva. (**Equine:** Antigens/Foods being tested are alfalfa, apple, barley, bermuda grass, brome grass, carrot, corn, cottonseed, fescue grass, flax seed, Kentucky blue grass, meadow foxtail, molasses, oat, orchard grass, red clover, rice, rye, rye grass, sugar beet, timothy grass, and wheat)	***$398 Equine***
CONSULTATION REQUEST (with Dr. Dodds)	**Fax form and All Medical Information and/or previous lab testing results to 714-891-2123.**	***$ 150.00***
Equine Titers	**Separated serum is required (0.5 ml) for each titer**	

SUGGESTIONS FOR SENDING SAMPLES:

For Sending Serum Samples ONLY (For Thyroid testing, Titers and Heartworm testing). You can use USPS priority 2-day. Put the serum tubes in a zip lock baggie & then wrap with bubble wrap or padded paper and put in a small sturdy box with the filled out Test Request Form. NO ICE PACK IS REQUIRED. Serum samples are viable for about 14 days at room temp (except for during extreme hot weather conditions)

Whole Blood Samples – Lavender Top Tubes Whole Blood Samples (lavender top tubes) **REQUIRE** an ice pack and should be sent by overnight courier (FedEx or UPS), or can be sent USPS Priority Mail (2-day) with an ice pack. This would include any tests or profiles that contain CBC testing, which requires a lavender top tube.
